Policy

RELATIONS WITH VENDORS

The Board of Education wishes to maintain good working relations with vendors who supply materials and services to the school system. Constructive efforts by the administration to seek the advice and counsel of vendors about how to improve such relationships are encouraged.

In the schools, vendors shall be seen by appointment only. Vendors who call upon a school shall be governed by Policy 1250. Teachers or supervisors of instruction who have invited vendors to call should notify the principal's office in advance so that proper courtesies may be extended.

No agents, canvassers, or vendors shall have access to teachers during their classes. No business concern which solicits or gains business through the school system shall use school facilities for this purpose.

Nondiscrimination

All vendors shall supply assurances that they do not practice discrimination as described in the administrative code. All vendors shall be informed that harassment of any kind of district pupils or employees by their representatives is prohibited.

Honest and Ethical Relations with Vendors; Pay to Play Restrictions

The district shall maintain honest and ethical relations with vendors and shall guard against favoritism, improvidence, extravagance and corruption in its contracting processes and practices. The school board will not vote upon or award a contract in the amount of \$17,500 or greater to any business entity which has made a reportable contribution to a member of the district Board of Education during the previous one-year period. Such contributions, to any member of the school board, from any entity doing business with the district are prohibited during the term of the contract, including contributions by a vendor's spouse or child, or contributions by any person having an interest in the business entity. Disclosure of contributions shall be made when contracts are required by law to be publicly bid. However, these limitations do not apply when a district emergency requires the immediate delivery of goods or services.

Strategies to Avoid Excessive Professional Services Expenditures

The Board will seek to avoid excessive professional services expenditures, such as by:

- A. Establishing a maximum dollar limit, for budgetary purposes,
- B. Following state legal requirements and procedures to obtain the highest quality services at a fair and competitive price or through a shared service arrangement. This may include issuance of such contracts through a request for proposals (RFP) based on cost and other specified factors

or other comparable process such as the use of the “fair and open process” as defined in N.J.S.A. 19:44A-20.7; and

- C. Limiting professional services contracts to non-recurring or specialized work for which the district does not possess adequate in-house resources or expertise.

Prudent Use of Legal Services

To ensure the prudent and cost-effective use of legal services, the district will limit and designate the persons with the authority to request services or advice from contracted legal counsel. Legal counsel will not be used unnecessarily to make management decisions or to obtain readily available information such as district policies. Requests for legal advice shall be made in writing. Contact logs and records shall be kept and reviewed to determine that the requests for legal advice are necessary. Advance payments for legal services are prohibited. Services shall be described in detail and invoices for payment shall be itemized. Payment shall only be for services actually provided.

The Superintendent shall develop procedures to ensure the prudent use of legal services and the tracking of the use of those services by the district personnel.

If at any time the district’s legal costs exceed 130 percent of the Statewide average per pupil amount, the procedures set forth in N.J.S.A. 6A:23A-5.2(a)3 will be implemented, unless evidence can be provided that such procedures would not result in a reduction of cost.

ATTENDANCE, ABSENCES, AND EXCUSES
 —STUDENT ATTENDANCE—

The Board of Education believes that the regular attendance of students in each class and in school in general is critical to its educational mission. The district shall endeavor to achieve the ninety percent attendance rate required by the New Jersey Quality Single Accountability Continuum (NJQSAC). Continuity of instruction is an essential element in student performance and allows students the greatest opportunity to succeed at meeting the state learning standards in the Core Curriculum Content Standards. The Superintendent shall oversee the development of effective strategies that maximize student attendance at all scheduled periods of actual instruction or supervised study activities and strive to:

- A. Encourage good attendance;
- B. Discourage unexcused absences;
- C. Identify patterns of absence, tardiness and early departures from school; and
- D. Intervene to prevent and correct problems with attendance.

Definitions

- A. "Attendance" is a student's presence in school and in the classroom to which he or she is assigned at the times scheduled for instruction or other school activities.
 - 1. A student will be considered to have attended if he or she has been present at least four hours during the school day.
 - 2. A kindergarten student will be considered to have attended school if he or she has been present at least two and one half hours during the kindergarten session to which the student is assigned.
 - 3. A student not present in school because of his or her participation in an approved school activity, such as a field trip, meeting, cooperative education assignment, or athletic competition will be considered to be in attendance.
- B. "Excused absence" is a student's absence from school for a full day or a portion of a day for one or more of the following reasons:

1. The student's illness;
2. Requirements of a student's individual health care plan;
3. A death or critical illness in the student's immediate family, or others with permission of principal;
4. Quarantine;
5. Observance of the student's religion on a day approved for that purpose by the State Board of Education;
6. The student's suspension from school;
7. Requirements of the student's Individualized Education Program (IEP);
8. Alternate short or long term accommodations for students with disabilities;
9. The student's required attendance in court;
10. Interviews with an admissions officer of an educational institution;
11. Necessary and unavoidable medical or dental appointments that cannot be scheduled at a time other than the school day.
12. Such good cause as may be acceptable to the principal.

Attendance need not always be within the school facilities. A pupil will be considered to be in attendance if he/she is present at any place where school is in session by authority of the board. The board shall consider each pupil assigned to a program of independent study, with parent/guardian permission, to be in regular attendance for that program, provided that he/she is under the guidance of a staff member so assigned, reports daily or weekly, as prescribed, to such staff member the place in which he/she is conducting his/her study, and regularly demonstrates progress toward the objectives of his/her course of study.

C. "Unexcused absence" is a student's absence for all or part of a school day for any reason other than those listed in paragraph "Excused Absences" above. Absence is expressly not excused for any of the following purposes (this list is intended to be illustrative and is not inclusive):

1. Family travel;
2. Performance of household or babysitting duties; and
3. Other daytime activities unrelated to the school program.

D. "Truancy" is a student's absence from all or a part of the school day without the knowledge of the student's parent. A student between the ages of six and sixteen will also be considered truant if he or she:

1. Has accumulated unexcused absences of 10 or more;
2. Leaves school without permission when school is still in session;
3. Leaves class because of illness and does not report to the school nurse as directed; or
4. Is present in school but is absent from class without approval. Such truancy from class is a "class cut."

Tardiness

The orderly conduct of class activity depends upon the prompt and precise beginning of the program. Tardiness hinders the proper conduct of school activity. Students are expected to arrive to school and class on time. A student who is tardy to any class will be subject to disciplinary action as outlined in board policy 5131 Conduct and Discipline and Regulation 5131, the Code of Student Conduct. Consequences for accumulated occurrences of tardiness may include administrative detention, in-school suspension (ISS), Saturday detention loss of credit and an unexcused school day absence.

Attendance

In order for the Board of Education to fulfill its responsibility for providing a thorough and efficient education for each student, the complete cooperation of parents/guardians and students is required to maintain a high level of school attendance.

The frequent absence of students from classroom learning experiences disrupts the continuity of the instructional process and limits the ability of students to complete the prescribed curriculum requirements successfully. The following rules shall apply for student absences:

- A. A student shall be considered absent from class for tardiness in excess of one half of the total class period.
- B. A student shall be considered absent from school for participation in less than 4 instructional hours during the school day

A pupil must be in attendance for 162 or more school days in order to be considered to have successfully completed the instructional program requirements of the grade/course to which he/she is assigned.

A waiver of these attendance requirements may be granted for good cause by the school principal upon recommendation of the attendance Appeal Committee, appointed by him/her, and consisting of representative staff, including pupil service personnel and classroom teachers.

In recommending the granting of a waiver of this attendance requirement, the Attendance Appeal Committee shall consider the nature and causes of all absences rather than only those in excess of the 162 days. Documentation of the nature and causes of these absences shall be the responsibility of the pupil and parent/guardian.

Parents/guardians are responsible for notifying the school early in the day when a child will be absent and for informing the school of the reason for the absence. The Superintendent shall develop procedures for the attendance of pupils which:

- A. Ensure a school session which is in conformity with requirements of the rules of the state board;
- B. Identify potentially missing and/or abused pupils;
- C. Govern the keeping of attendance records in accordance with rules of the state board at N.J.A.C. 6A:16-1.1 et seq., including pupils serving in- or out-of-school suspensions, or excluded for health and cleanliness reasons;

Unexcused Absences

When a student fails to report to class or school the district shall:

- A. Make a reasonable attempt to notify the student's parents/guardians of each unexcused absence the day of the unexcused absence;
- B. Attempt to contact the parents/guardians by telephone, email and/or cellular phone to determine the cause of the unexcused absence.

If contact through these means is unsuccessful the district may follow-up with another attempt to contact the parents/guardians or send a letter reporting the unexcused absence and requesting the parent/guardian to contact the school.

If at any time it is suspected that there is a potential of abuse, neglect and/or a student is potentially missing the district shall implement all procedures required by law including reporting protocols, notification of parents/guardians and cooperation with law enforcement and other authorities and agencies, as appropriate.

Persistent Absences

If a pattern of unexcused absences arises consisting of up to three absences in one semester the district shall schedule a meeting with the parents/guardians. The purpose of this meeting shall be to develop an action plan to assist the student to return to school and maintain regular attendance. The action plan shall be developed in coordination with the parent/guardian and may include the classroom teacher, school nurse, guidance counselor, principal or other relevant staff.

If the pattern of unexcused absences continues and five to nine unexcused absences are accumulated the district shall:

- A. Make a reasonable attempt to notify the student's parents/guardians of each unexcused absence the day of the unexcused absence;
- B. Attempt to contact the parents/guardians by telephone, email and/or cellular phone to determine the cause of the unexcused absence.
- C. Conduct a follow-up investigation by contacting the student's parents/guardians in writing to determine the cause of each unexcused absence
- D. The principal or his or her designee shall schedule a meeting with the parent/guardian and the student.

The purpose of this meeting shall be to evaluate the appropriateness of the action plan to assist the student to return to school and maintain regular attendance. The plan shall be reviewed and revised in coordination with the parent/guardian and may include the participation of the classroom teacher, school nurse, guidance counselor, principal or other appropriate staff. The plan shall establish outcomes based upon the student's needs and specify the interventions for achieving the outcomes and supporting the student's return to school and regular attendance. That plan may include any or all of the following:

1. Referral or consultation with the building's Intervention and Referral Services team;
2. Testing, assessments or evaluations of the student's academic, behavioral and health needs;
3. The consideration of an alternate educational placement;
4. Referral to a community-based social and health provider agency or other community resource;
5. Referral to the court program designated by the New Jersey Administrative Office of the Courts;
6. The implementation of all required procedures for potential abuse, neglect or missing child including cooperation with law enforcement and other authorities and agencies, as appropriate.

Discipline

All discipline regarding the attendance of students shall be consistent with the Board Policy 5131 Conduct and Discipline and the Code of Student Conduct. Consequences for absences may include:

- A. Students may be denied participation in co-curricular activities if their attendance fails to meet the standards set forth herein and in Board Policy 5113 Absences and Excuses.
- B. Students may be denied participation in athletic competition, if their attendance fails to meet the standards set forth here in.

- C. Loss of partial or total course credit;
- D. Detention or suspension.

No student who is absent from school for observance of a religious holiday or other excused absence shall be disciplined and/or deprived of any award or of eligibility for or opportunity to compete for any award because of the absence.

Students, parents and guardians shall be notified of disciplinary actions for attendance including loss of credit and may appeal this determination through the procedure as set forth in Board Policy 5145.6 Student Grievance Procedure and the school's Attendance Appeal procedures.

Truancy

For cumulative unexcused absences of 10 or more, the student between the ages of six and 16 is truant, pursuant to law. The district shall:

- A. Make a mandatory referral to the court program required by the New Jersey Administrative Office of the Courts;
- B. Make a reasonable attempt to notify the student's parents of the mandatory referral;
- C. Continue to consult with the parent and the involved agencies to support the student's return to school and regular attendance;
- D. Cooperate with law enforcement and other authorities and agencies, as appropriate;
- E. Follow all procedures required by N.J.S.A. 18A:38-28 through 31, Article 3B, Compelling Attendance at School and other applicable state and federal statutes.

Unexcused Absences for Students in Special Education

The attendance guidelines, discipline and remedial measures set forth in this policy shall apply to classified students where appropriate and in accordance with the student's:

- A. Individualized Education Program (IEP);
- B. Procedural protections set forth in N.J.A.C. 6A:14;
- C. Alternate short or long term accommodations for students with disabilities as required by law;
- D. Requirements of a student's individual health care plan.

District Sending and Receiving Relationships

The receiving school shall report attendance problems to the sending district responsible for the student. Following five or more cumulative unexcused absences school officials shall proceed in accordance with the sending district's board attendance policy and procedure.

Truancy

~~The board will report to appropriate authorities infractions of the law regarding the attendance of pupils below the age of 16. Repeated infractions by enrolled pupils over the age of 16 may result in the suspension or expulsion of the pupil.~~

~~It shall be the policy of the board to consider the effectiveness and appropriateness to his/her needs of the educational program that is offered each pupil who is habitually and repeatedly absent from his/her assigned program and to consult with the child study team for its recommendations.]~~

Excused Absences

The board considers the following as cause for excused absence:

- ~~A. Disabling illness~~
- ~~B. Recovery from accident~~
- ~~C. Required court attendance~~
- ~~D. Death in the family~~
- ~~E. Religious observance--In accordance with statute, no pupil absent for religious observance of a day recognized by the commissioner of education or this board of education shall be charged with an unexcused absence, deprived of an award or eligibility/opportunity to compete for an award, or of the right to take an alternate to a test or examination missed through such absence.~~
- ~~F. Such good cause as may be acceptable to the principal~~

~~Attendance need not always be within the school facilities. A pupil will be considered to be in attendance if he/she is present at any place where school is in session by authority of the board. The board shall consider each pupil assigned to a program of independent study, with parent/guardian permission, to be in regular attendance for that program, provided that he/she is under the guidance of a staff member so assigned, reports daily or weekly, as prescribed, to such staff member the place in which he/she is conducting his/her study, and regularly demonstrates progress toward the objectives of his/her course of study.]~~

Regular Release of Pupils Before the End of the Normal School Day

There are varying situations which may justify release of certain pupils from school before the normal time for closing. Such situations are justifiable only if the release does not jeopardize the pupil's educational program and the reasons for such release can be shown to have positive benefits for the pupil.

Late Arrival and Early Dismissal

The Board recognizes that from time to time compelling circumstances will require that a pupil be late to school or dismissed before the end of the school day.

As agent responsible for the education of the children of this district, the Board shall require that the school be notified in advance of such absences by written request of the pupil's parent/guardian, which shall state the reason for the tardiness or early dismissal. Justifiable reasons may include:

- A. Medical or dental appointments which cannot be scheduled outside of school hours;
- B. Requirements of a student's individual health care plan;
- C. Requirements of the student's Individual Education Program (IEP);
- D. Alternate short or long term accommodations for students with disabilities;
- E. Medical disability;

- F. Motor vehicle driver's test;
- G. Interview for college entrance or employment;
- H. Family emergency;
- I. Court appearance;
- J. Such good cause as may be acceptable to the administration.

No pupil in grades kindergarten through eight shall be permitted to leave the school before the close of the school day unless he/she is met in the school office by his/her parent/guardian or a person authorized by the parent/guardian to act in his/her behalf. In either case, the individual must present a valid form of identification before the pupil is released to him/her.

Tardiness not covered by the causes listed shall be cumulative, and may affect course credit.

Legal Custody

A record shall be kept indicating the legal custodian of each pupil. Such custodian shall be responsible for informing the Board of any change in the pupil's custodian or guardian. ~~If one parent/guardian has been awarded custody of the student in a divorce settlement, the other parent/guardian shall present to the principal a letter authorizing him/her to accompany the child from school before the child may be released to him/her.~~ The principal may take such steps as seem necessary to ensure that the child is released only to the proper legal custodian.

Potentially Missing Children

- A. If daily attendance records indicate a child is absent, and the parent/guardian has not called, a designated person shall attempt to contact them.
- B. If no telephone contact can be made, the attendance officer shall investigate.
- C. If the attendance officer cannot locate the child, he/she shall inform the principal, who shall inform the appropriate local authorities.
- D. If a child who was present in the morning is absent after lunch, the same procedure shall be followed.

Marking Missing Child's School Record

Whenever the Superintendent receives notice from the Missing Persons Unit that a child has been reported missing, he/she shall mark the child's records in such a way that whenever a copy of or information regarding the record is requested, district personnel will be aware that the record is that of a missing child. If a copy of a marked school record is requested, the Superintendent shall supply the record to the requestor without alerting him/her to the fact that the record has been marked, according to provisions in code and statute on accessing pupil records (see Policy 5125 Pupil Records). After the Superintendent has complied with the request for copies of records or information, he/she shall immediately report the inquiry or any knowledge as to the whereabouts of the missing child to the Missing Persons Unit and the Sayreville Police Department.

Regulations

The Superintendent shall develop procedures for the attendance of pupils which:

- A. Ensure a school session which is in conformity with requirements of the rules of the state board;
- B. Identify potentially missing and/or abused pupils;
- C. Govern the keeping of attendance records in accordance with rules of the state board, including pupils serving in- or out-of-school suspensions, or excluded for health and cleanliness reasons;
- D. Impose on truant pupils such disciplinary measures as may be appropriate for infractions of school regulations, but no such penalty may have an irredeemable negative effect on the pupil's record of achievement beyond that which naturally follows his/her absence from school activities;
- E. Identify the habitual truant, investigate the causes of his/her behavior, and consider modification of his/her educational program to meet his/her particular needs and interests;
- F. Address tardiness and class cutting in terms of the intent of this policy;
- G. Ensure that pupils absent for any reason have an opportunity to make up work they missed;
- H. Recognize exemplary attendance.

Dissemination and Implementation

The Superintendent shall take all necessary steps to publicize this policy and may include these rules in district handbooks and/or on the district website. Parents/Guardians and students shall be notified annually of the attendance policy.

The Superintendent shall ensure that the rules for this policy are applied consistently and uniformly, and that all disciplinary sanctions are carried out with necessary due process.

The Board shall review the attendance policy on a regular basis.

EMERGENCIES AND DISASTER PREPAREDNESS

The Superintendent shall direct the development of plans, procedures and mechanisms for responding to emergencies and crises in the schools that threaten human life and property. He/she shall consult with law enforcement agencies, health and social services agencies and emergency management planners in developing these plans and shall ensure that they provide for the protection of the health, safety and welfare of the school population as well as supportive services for staff, students and their families.

Plans and procedures shall include these elements:

- A. Cooperation with local government agencies in developing and carrying out a school/community disaster plan that includes procedures for building lockdowns when necessary;
- B. Mechanisms for the orderly evacuation of buildings in case of fire or other emergencies;
- C. Means to provide as much protection as possible for children at school and on their way to and from school;
- D. Training in individual self-protection and survival techniques for pupils and staff;
- E. Communicating specific instructions to pupils and staff so that the school emergency plan may be carried out with the greatest possible speed and safety.

The Superintendent shall develop and provide an inservice training program for school staff to enable them to recognize and appropriately respond to crises, consistent with the district's plans, procedures and mechanisms for managing crises. The inservice program shall be reviewed and updated annually.

Fire Drills and Homeland Security Drills

Fire drills shall be held at least once ~~twice~~ each month for all pupils. Beginning November 2010 There shall also be at least one homeland security drill per month . The chief school administrator may order a modification of the fire drills, so that they may take the form of indoor drills or of rapid dismissals with outdoor clothing when low temperatures prevail.

A written statement of procedures and instructions for fire drills and homeland security drills shall be formulated by the Superintendent and disseminated to all staff.

Instruction in fire prevention shall be given and emphasized in appropriate courses in the curriculum of the school. The homeland security drill will be an exercise to respond to an emergency situation such as a non-fire evacuation, lockdown, bomb threat or active shooter situation that is similar in duration to a fire drill.

Emergency Closings; Delayed Openings

The Superintendent is authorized by the Board to close the schools, open them late or dismiss them early in hazardous weather or in other extraordinary circumstances which might endanger the health or safety of pupils or school employees.

Each year, parents/guardians, pupils, and staff members shall be informed in advance of how they shall be notified in event of emergency closings. Parents/guardians shall be required to make alternative arrangements for their children in case no one is home to receive a child after an unscheduled early closing.

Bomb Scares

The buildings shall be evacuated as for a fire drill. Staff shall follow the procedures established by the chief school administrator to deal with such emergencies.

HIV PREVENTION EDUCATION

The Board of Education believes HIV education should be integrated into the comprehensive health education curriculum, but may also be applied to other curricular areas.

The district HIV education program must address, at a minimum, the nature, transmission, prevention and effects of the disease. The program shall be provided through a coordinated sequential elementary and secondary curriculum, taking into consideration the age, growth, development and maturity of the pupils and the subject matter of the course. Development of the program should take into account the instructional needs of all pupils in the district.

The Superintendent shall ensure that the information presented as a part of the HIV prevention education program is articulated in such a way that transition from grade to grade in the elementary schools and from elementary to secondary approaches to the material will be appropriate for all pupils.

The Superintendent shall be responsible for the preparation and development of an HIV prevention education program, with active consultation and participation of an advisory committee consisting of teachers, administrators, parents/guardians, pupils (as appropriate), physicians, members of social and health service agencies, members of the clergy and representative members of the community. The Board shall appoint the members of the committee upon the recommendation of the Superintendent. The advisory committee shall be responsible for reviewing the instructional program and all materials to be used and, through the Superintendent, of recommending same for Board adoption.

The Superintendent shall ensure that all staff involved in teaching the HIV prevention education program are properly certified for the subject area in which they are teaching and adequately prepared to teach the material. As necessary, appropriate staff training shall be provided.

Upon request, the HIV education curriculum will be made available to parents/guardians for their review. The Superintendent will establish procedures whereby pupils whose parents/guardians presents to the building principal a signed statement that a designated part of the instruction is in conflict with his/her conscience, morals or religious beliefs will be excused from that part of the curriculum. An alternative educational opportunity shall be provided during the time a pupil is excused from part or the entire program. The alternative educational opportunity will include topics that are not conflict with the parents/guardians beliefs but fall within the same subject area (i.e. comprehensive health education) as the program from which the pupil is excused. There shall be no loss of class credit or credit toward graduation from such an exemption.

The Superintendent shall establish a process for evaluating and updating the HIV prevention education program to incorporate new information. Any such revisions shall be implemented after consultation with and review by an advisory committee as described above. The Board of Education, upon the recommendation of the Superintendent, shall determine the content, sequence, and materials of the HIV prevention education program.

*An advisory committee is an effective means used by districts when the law specifies that curriculum be developed through appropriate consultation and participation of groups and individuals.

The Board of Education alone, upon the recommendation of the Superintendent, shall determine the content, sequence, and materials of the HIV prevention education program. The Board shall ensure compliance with all requirements of state and federal law concerning the content of the curriculum and distribution of materials.
