Dr. Frank R. Alfano,
Superintendent of Schools

April 29, 2009

Dear Parent/Guardian,

We have posted on our district website information provided by Gerald J. Vernotica, Ed.D., Assistant Commissioner, Division of Field Services of the NJ Department of Education for parents and school officials regarding the Swine Influenza (H1N1 Virus).

The Sayreville School District already engages in the daily disinfecting of areas commonly touched by students and staff. We are especially cognizant of the guidance from the NJ Department of Health and will follow all issued protocols. However, it is important for you as parents/guardians to follow those same practices in your home, so that we may all decrease the likelihood of contracting the Swine Influenza (H1N1 Virus).

Please take the time to speak to your children and family members about the precautions recommended by the NJ Department of Health and Senior Services and posted on this website. We will continually update this information for parents, as it becomes available from the NJ Department of Health and Senior Services and/or the NJ Department of Education. For further information on Swine Influenza (H1N1) Virus, please refer to the websites at the end of the information from the NJ Department of Health.

Sincerely,

Dr. Frank Alfano

Dr. Frank Alfano
Superintendent of Schools
