

## DISTRICT HIGHLIGHTS

Mr. Pat Lembo

Number 3  
July 25, 2006

- Kudos to the Samsel Upper Elementary School Summer Enrichment Program and Bonnie Brady, Program Director, who partnered with the Office of Aging in the Sayreville Senior Citizen Center to have the enrichment students teach the senior citizens on how to use the internet. The senior citizens attended a session on July 21, 2006 and another session is being made available to them on July 28, 2006. The SUES Enrichment Program believes that when students teach others, they have the opportunity to learn more themselves. This is yet another wonderful community service program brought to you by the students of Sayreville!
