

Below is an important message from the Sayreville Public Schools regarding the launch of the OnCourse Connect Annual Enrollment Update:

July 30, 2018

The Sayreville School District is in the process of launching a new Student Information System, which includes a new and improved Annual Enrollment Update component of the new Parent Portal called OnCourse Connect. This will replace annual enrollment update conducted via PowerSchool Registration/InfoSnap.

On July 30, 2018, in the afternoon, the Sayreville School District will activate the annual enrollment update portion of the new OnCourse Connect Parent Portal. To complete this update, you will simply need to log in to OnCourse Connect (<https://www.oncourseconnect.com>) and you will be automatically provided with the enrollment update forms. Once the enrollment update is complete, you will be automatically returned to the OnCourse Connect portal. Later this summer, student school schedules and bus routes will be posted to OnCourse Connect.

In order to complete the annual enrollment update, you need a device with internet access and an OnCourse Connect account. The New OnCourse Connect account letters for the primary guardian for returning students entering grades 1 to 12 were sent out through a Secure Document Email, similar to how report cards and progress reports have been sent out in the past. This was sent out on July 16, 2018. To access the secure document, you need to enter your child's student identification number. Please note that if you were listed as contact one for multiple students in grades 1-12, you should have received multiple secure documents; however your new OnCourse Connect username and password should be the same for all of the students that are associated to you. If it is not, please contact parent.portal@sayrevillek12.net.

Parents/Guardians of newly registered students, students entering Preschool, and students entering Kindergarten will be issued OnCourse Connect accounts in mid to late August prior to school schedules and bus routes being released. These parents will NOT need to do the annual registration update, as they have already supplied registration forms for this year.

If you are the primary guardian for returning students entering grades 1 to 12, and you did not receive a letter via Secure Document email on or about July 16, 2018 and you believe you have, please email parent.portal@sayrevillek12.net.

For guardians who are not listed as contact one in PowerSchool, you are still eligible for an OnCourse Connect account. To receive an account, you can either wait for guardian contact one to add you when they complete the annual registration update later this summer, or you can email parent.portal@sayrevillek12.net. Once your identity is verified, you will be issued your account credentials.

Please note that, students are not eligible for OnCourse Connect accounts at this time. In late August, students in the middle and high schools will be issued student accounts to OnCourse Connect. Student accounts will never be eligible to complete the annual enrollment update, only guardian accounts are provided with this feature.

If you have any technical questions, or other problems pertaining to the OnCourse Connect Parent Portal, please e-mail parent.portal@sayrevillek12.net. Additional information on OnCourse Connect can be found on our district website: <http://www.sayrevillek12.net/parents/registration>

You can preview the full OnCourse Connect system from this demonstration video <https://oncoursesystems.wistia.com/medias/rgbtw1285z>

Thank you for your participation in our transition to OnCourse Connect.
