TRAINING GUIDELINES

Rule #1 - Enjoy the Summer

Relax. Enjoy the time off from school. Have fun with your friends. Go to the pool, beach, whatever. If, after observing Rule #1 you have time for summer training, it can really help you in the fall competitive season.

Rule #2 - Run at an Easy, Steady Pace

You should run at a steady, jogging pace. If running with a partner, you should be able to talk comfortably with them. The goal of summer training is to build your endurance - we will add speed work in the fall.

Rule #3 – Get a good pair of running shoes.

Road Runner Sports is an excellent place to get a good pair of running shoes, but they are a little expensive. However, once you know the type of shoe you need you can then search to find the best deal. You should NOT be running in converses, basketball shoes.
